### Introduction:

The Artisan Collection of hand crafted textured wall coverings is designed to enhance both contemporary and classical settings. Each pattern is multidimensional adding depth and character to the wall covering. Every design within the collection is carefully crafted with an embossed texture giving a beautiful three dimensional quality to the wall coverings.

Design Bellora; our beautiful butterfly is created by applying gold metallic paste by hand with a palette knife to either grasscloth or hand gilded metallic. The gold butterfly applied to a metallic gold ground creates an intense luxurious multidimensional look. Applied to grasscloth contrast is created between the natural matt grasscloth ground and the delightful gold butterfly. Our pearlised butterflies applied to hand gilded metallic grounds create a more subtle effect that can be intensified with the addition of colour to the metallic wall covering. Whichever butterfly or ground you choose the design will add impact to any scheme.
