

Eastern Impressions Collections

D'Arts new collection consists of seven refreshing contemporary designs with inspiration drawn from the East.

These designs reflect the natural beauty of the environment, the creative hand of the artist, textile designer and crafts person.

Subtle influences from Chinese chinoiserie and Japanese textiles combine with toile de Jouy and Chinese lattice work to create a series of stunning new wall coverings that will add a contemporary sophistication to any room.

These beautiful wall coverings are offered in a variety of colours and are printed in the UK on our gilded metallic giving a delicate lustre for an elegant look and, printed on our linen or grass cloth providing added texture and depth for a more relaxed natural look.
